Summary

Full Stack Web Developer and life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly applications. Known among staff for strong wit and attention to detail no matter the complexity of the project.

Technical Skills

Languages: JavaScript, Python, HTML, CSS

Framework: React, Flask, Jinja2, Bootstrap

Other Tools: Git, Github, Terminal, Mongo, SQL

Projects

Tech Conference Website

lwrgithub.github.io/tech-conf-site/ | github.com/LWRGitHub/tech-conf-site

- This is a good one page example website of the work I can do as a Software Engineer & a UX/UI Designer. This example website includes a registration form that upon clicking the button pops up, as well as the necessary information & sections needed for a tech conference website.
- Desktop, Mobile, Software Engr(Front-End), Web/Mobile/App, DevUX/UI Design, JS, DOM, HTML, CSS, jQuery, Bootstrap

Portfolio Website

lwrgithub.github.io | github.com/LWRGitHub/LWRGitHub.github.io

- I made this site with React.js, it holds a lot of great projects & provides good info about me. I hope you like it!
- Desktop, Mobile, Software Engr(Front-End), Web/Mobile/App, DevUX/UI Design, Data Sci, JS, DOM, HTML, CSS, jQuery, Bootstrap, React.js, React Bootstrap, React Router, Google Analytics, Google Maps, CI/CD, Git, GitHub, Photoshop

Student Enrollment

lwrgithub.github.io/student-enrollment/ | github.com/LWRGitHub/student-enrollment

- This web application is an example student enrollment platform. It allows the teacher to edit, add or remove students at any time.
- Desktop, Mobile, Software Engr(Front-End), DevUX/UI Design, Data Sci, HTML, CSS, JS, Google Analytics, Google Fonts, Bootstrap

Experience

Software Engr - Intern

stageIV.org e-commerce

2020

SF, CA

As part of my dance4healing.com internship, it was requested that I set up Google Analytics for StageIV.org. There were some bugs in the code from other people's attempts so I had to use my software engineering skills to fix the code & make it all work together correctly.

Full Stack Software Engr - Intern

Dance4Healing.com

2020

SF, CA

Continuous integration and continuous deployment of the website. Including aspects such as web design, web publishing, web programming, & database management. Creating a computer program or a set of programs to perform the different tasks that the business requires. Building economical software which is reliable & works efficiently on real machines. Worked closely with business stakeholders to understand their goals & determine how data can be used to achieve those goals.

Project Manager - Amazon KDP Publisher

E-commerce

2018 - present

SF, CA

Orchestrated the publication of 10+ ebooks on Amazon including paper & Audible publication of books. Gave ideas & directed ghostwriters in realizing those ideas as published works. Designed eight covers. This involves the design of the entire process of acquiring and integrating the product, including aspects of branding, design, usability & function. Making interfaces in software or computerized devices with a focus on looks or style.

Education

Bachelor's Degree in Applied Computer Science - in Progress 2022

Make School "Dominican University," SF, CA
