Logan Reynolds

San Francisco, CA
Email: EngineerLWR@gmail.com
LinkedIn: LinkedIn.com/in/Logan-Reynolds

Software Engineer

Stakeholder collaboration	**Determining requirements**
Design documents	**Identifying dependencies**
Product features	**Oversight**
Willingness to learn	**Following a playbook**

Studies: **General Studies for Bachelor,** Computer Science, DUCA
AS, Computer Networking Information Technology, CCSF

Technologies: Python, JavaScript, Node, React, GraphQL, MongoDB, SQL, Linux

---

WORK HISTORY

Web Applications Engineers 3, Adobe, Remote   **2022 - 2023**

- 35% data expansion using SCRUM / Agile Dev among 5+ peers drove a 75% enhancement due to 50+ updates.
- CI/CD on Adobe(AA, CJA, AEP) led to a 20% increase in data quality & efficiency with JavaScript solutions, in-house TypeScript library, MySQL queries, & Unified Shell React.js app, resulting in a 15% boost.
- Observed 45% rise in actionable insights with CJA & Web SDK schema design in AEP.
- JavaScript, Node, TypeScript, React, MySQL, Adobe(Experience platform, Adobe Analytics, Customer Journey Analytics, Data Collection, Admin), Jira, Artifactory

Interim Fractional CTO, Prose, Remote   **2023 - 2023**

- 20% lead, 60% software, 20% data; with a specific emphasis on React.js & GraphQL.
- Observed new component launch increasing visibility by 55%.
- JavaScript, TypeScript, Node.js, React.js, GraphQL, Jira, JSON

Support Engineer, Verizon**,** Remote   **2022 - 2022**

- Achieved 85% faster resolution, 95% quicker responses.
- Worked with 5+ peers often operating independently & without direct supervision having resolved 2,000+ tickets.
- JSON, Data, Windows, APIs

App-cloud Services-Developer, Wipro, Remote   **2021 - 2022**

- 95% mastery in Dev, 75% time cut, 30% increase in overall project success rates.
- Completed 100% of assigned coding projects ahead of deadlines.

- JS, Node, AWS, JSON, APIs, HTML/CSS, Shell, Data/Databases, SQL

Software Engineer Intern, StageIV, SF, CA   **2020 – 2020**

- Undertook the configuration of Google Analytics/data.
- Proactively identified & resolved 100% of the bugs inside a JS & HTML codebase.
- Completed 3+ projects ensuring a seamless & optimal UI/UX.
- JavaScript, HTML, Google Analytics, Terminal, Data

Full Stack Software Engineer Intern, Dance4Healing, SF, CA   **2020 – 2020**

- Enhanced Node, MongoDB app alongside 5+ peers by 20% amidst CI/CD practices, enabling efficient testing & deployment on Heroku.
- Created 2+ tutorial / Wikis on utilizing Git / GitHub to deploy the app & add 10+ crucial lines to the README.md file using Markdown.
- JS, Node, Express, Heroku, Jade, MongoDB, Google Analytics, Trello, Terminal

---

EDUCATION

General Studies for Bachelor, Computer Science, Dominican University of California (2021)
Associate, Computer Networking Information Technology, City College of SF (2023)

ADDITIONAL EXPERIENCE

➢ **Certifications**

Fundamentals of Networking, City College of SF	**2022**
Software Development, Code The Dream	**2020**
Full Stack Development, Meda Mission Techies	**2020**
Front End Web Development, Code Tenderloin	**2019**
Intermediate JavaScript, Code Tenderloin	**2019**

➢ **Work Examples**

Portfolio: EngineerLWR.com	**2019- present**
GitHub: GitHub.com/LWRGitHub	**2019- present**

➢ **Projects**

Auto Job Search, GitHub.com/LWRGitHub/job-search-scraping-linkedin	**2023**
Custom ChatGPT, Chat.OpenAI.com/g/g-xKyZbu82T-Analytics-Expert	**2023**
Vegan Query, GitHub.com/VeganQuery/VeganQuery.GitHub.io	**2021- 2022**
Đurocoin, GitHub.com/LWRGitHub/duro-ios	**2021**
CS Scraper, GitHub.com/LWRGitHub/CS_Scraper	**2020**
The Midnight Dream Publishing, EngineerLWR.com/book-site	**2019**
