Projects

Portfolio Website
lwrgithub.github.io | **github.com/LWRGitHub/LWRGitHub.github.io**
- I made this site with React.js, it holds a lot of great projects & provides good info about me. I hope you like it!
- JS, HTML/CSS, jQuery, Bootstrap, React.js, CI/CD, Photoshop

Women's Basketball Through The Years
lwrgithub.github.io/womens-basketball-website | **github.com/LWRGitHub/womens-basketball-website**
- This website provides information about specific events throughout the years of women's basketball.
- JS, React.js, HTML/CSS, Bootstrap

Scrapping Craigslist/Trash Nothing!
github.com/LWRGitHub/cs_scraper
- Free Apple products & more through scrapping Craigslist/Trash Nothing! These python files use bs4 & selenium to scrape the web & send you a text message when you find that awesome thing you're looking for! The files are set up for searching for free apple products, computers, laptops, & video games.
- Python, Bs4, Selenium, Request, Dotenv

Amazon KDP E-commerce & Website
lwrgithub.github.io/book-site | **github.com/LWRGitHub/book-site**
- This is a React.js website for my Amazon KDP project. I Orchestrated the publication of 10+ ebooks on Amazon including paper & Audible publication of books. Gave ideas & directed ghostwriters in realizing those ideas as published works. Designed eight covers. This involves the design of the entire process of acquiring and integrating the product, including aspects of branding, design, usability & function. Making interfaces in software or computerized devices with a focus on looks or style.
- JS, HTML/CSS, React.js, Bootstrap, React Bootstrap, React Router, React HashRouter, Amazon KDP, E-commerce

Experience

Software Engr - Intern   **2020**
stageIV.org e-commerce   **SF, CA**
As part of my dance4healing.com internship, it was requested that I set up Google Analytics for StageIV.org. There were some bugs in the code from other people's attempts so I had to use my software engineering skills to fix the code & make it all work together correctly.

Full Stack Software Engr - Intern   **2020**
Dance4Healing.com   **SF, CA**
Continuous integration and continuous deployment of the website. Including aspects such as web design, web publishing, web programming, & database management. Creating a computer program or a set of programs to perform the different tasks that the business requires. Building economical software which is reliable & works efficiently on real machines. Worked closely with business stakeholders to understand their goals & determine how data can be used to achieve those goals.

Education

Bachelor's Degree in Applied Computer Science - in Progress 2022
Make School "Dominican University," SF, CA
